DataQuick Delivers Fast and Effective Credit Solutions

Fraud continues to challenge our current lending environment. Identity thieves use personal information to open new accounts or misuse existing accounts, creating financial havoc for lenders and consumers alike. DataQuick's credit reports and fraud tools provide the key information and detailed credit intelligence needed to support fully informed decisions.

With experience and expertise in reporting, analyzing and interpreting credit data, DataQuick helps lenders improve loan quality and mitigate losses due to fraud and identity theft.

Through our Calyx Point connection, DataQuick delivers high quality products that are supported with an exceptional customer experience and consultative process solutions. We're able to drive down time, cost, and risk with a comprehensive product line that addresses the entire spectrum of real estate transactions.

Document Preparation and Compliance Service in One Solution

Founded in 1988, DocMagic is the mortgage industry's leading provider of loan document production and compliance-related services. DocMagic produces and delivers error-free loan document packages throughout the entire loan process. DocMagic's staff of legal and compliance experts constantly monitor regulatory changes at both the federal and state levels to ensure that all agency forms are up-to-date and accurate. DocMagic's world-class customer support services are second-to-none.

DocMagic's Compliance engine analyzes your transaction information, checking for missing or inaccurate data and validating values against required parameters. The Compliance engine also performs jurisdiction-specific checks, such as the North Carolina Rate-Spread Test, Federal Section 32 High-Cost Analysis, State-Based Predatory Lending Analysis, GSE Points and Fees Analysis, and an Escrow Aggregate Accounting Analysis. DocMagic provides easy access to everything you need to ensure transactions comply with today's ever-changing, compliance-intensive regulations and laws!

DocMagic's products and services are accessed from within Point via the Calyx DirectConnect interface. Through the Initial Disclosures service option, users can conveniently order document sets such as Initial Disclosures, Redisclosures, Final Disclosures, Processing, Underwriting, Prequalification, Point-of-Sale and Adverse Action/Denial. Closing, Pre-Closing and Post Closing document packages are available through the Closing Documents option.

SUPPORT TIPS

Where'd My Data Go?

You've just updated your Point software and you're ready to take a look at the new features when you notice that your data folders are gone. Don't panic. This happens if your data folder locations are not set up in MyCalyx when it pushes your Point update. Your data is still there; you just need to tell your Point software where to find it. The good news is the steps found in our [Knowledge Base](#) article are minimal and easy to follow.

Remember to bookmark the Calyx Support [Knowledge Base](#) site. It might come in handy again!
