WebCaster® Coming May 10!

The latest [WebCaster](#) release is launching on May 10th! This release has many new and exciting features including:

- **eDisclosures:** Gives you the ability to send documents from the document management site to borrowers allowing for document download and signatures, all from a secure website receiving room for easy, anytime access.
- **Document Requests:** When you need to collect documents from your borrowers, you can now request them in Point® 7.6 via WebCaster and you can then easily and securely upload electronic documents to WebCaster to be stored in their Point file.
- **Google Analytics:** The ability to use this free feature gives you enhanced tracking of web site activities while measuring advertising ROI, giving fresh insight on how visitors use your site, how they arrived and how you can keep them coming back.
- **Loan Application Ownership:** Assuring the selection of the right loan officer by the borrower
- **Speed Bumps:** Provides information to the borrower about links that are not "owned" by the web site
- **Calculator Improvements:** Improved calculators that allow for instant adjustments

Not currently using WebCaster? You could be missing the key to a successful website that will increase your business, by allowing you to start accepting online applications, thus increasing the number of closed loans by building your loan pipeline.

Already have a website? Utilizing WebCaster holds the key to a plug-in solution that will create a seamless integration with Point and PointCentral®. This unique plug-in solution allows you to start accepting online applications immediately without interruption to your existing site.

The powerful combination of [Point 7.6](#) and [WebCaster](#) is not one you want to miss. Make sure your account is current by calling your account rep at 800-362-2599 today or [click here](#) for more information on WebCaster.

CALYX NETWORK

Having difficulty getting a VOE? Calyx can help!

Using an LOS like Calyx saves time and money, and using a partner like Advanced Data does the same with access to Tax Transcripts, SSN Verification and Verification of Employment (VOE). All services are provided at industry leading turn-around times and some of the most competitive rates available.

Verifying employment is imperative to closing a secure loan, but it can be time-consuming and stressful before closing. Why pay an in-house verifier over-time when you can pay us ONLY the cost of the VOE?

"It is so much simpler to have Advanced Data do our VOEs," say many clients. Calyx users will appreciate the seamless integration to Advanced Data's 100% VOE solution. In Calyx, you send to us the borrower and employer information and our team does all the work to contact those tough to reach employers to verify employment. It includes an automatic Re-VOE right before closing to ensure accuracy of borrower employment.

For more information on the Calyx interface to Advanced Data, contact information@advanceddata.com or call us at 1-800-537-0458.

SBS Offers Integrated Solutions to Help Home Equity Lenders Compete

When it comes to home equity lending, time is money. You need access to quality property and valuation solutions delivered in a timely manner to help you compete effectively. And with increased industry scrutiny, you want a qualified, trusted partner to aid in your compliance efforts. Select Business Services Inc. (SBS*), an affiliate of CBCInnovis, is an experienced partner in providing valuation services for home equity lenders.

Today's regulatory environment has become increasingly complex and challenging to manage. Federal guidelines mandate that lenders validate valuation methods, other than exclusively using appraisals, by determining the property's actual physical condition. Related economic and market conditions must also be taken into consideration. To help you navigate these complexities and help you meet your compliance goals, SBS offers a variety of valuation products designed specifically for home equity lenders.

Calyx users have access to the comprehensive suite of SBS solutions geared specifically for home equity lending. From AVMs and Cascades to Property Condition Reports and Instrument Recordation, SBS offers the products you need to grab your share of the home equity market. And all products are delivered seamlessly through an interface to Calyx, helping you close real estate transactions with greater speed and accuracy.

As the Home Equity lending season approaches, let SBS solutions help you comply, compete, and close deals. For more information on how SBS can help you, contact us at 800.805.0592 or email us at sbssales@cbcinnovis.com.

*SBS is a d/b/a for DataVerify National Property & Valuation Services, Inc.

SUPPORT TIPS

PDF Conversion Problem Fixed in Point 7.6

The latest version of Point is out and it contains relief for several issues that have been bothersome for some of our customers lately. Chief among these is printing out .pdf documents that used to require a reinstall of the document converter ("PDF Error: Printer Not Activated"). Thankfully, that is no longer the case with Point 7.6 and there are a number of other issues that have been addressed. For a complete list of the release notes (feature enhancements, changes, etc.) please visit the [Calyx Support](#) site and view the article on the Point 7.6 release.
